## **Semper International appoints Scott Zettlemoyer Contingency Direct Hire manager**

**Will oversee Semper efforts nationally to place candidates in full-time positions**

**Boston, MA – Sept 21, 2006** – Semper International, the leading placement firm for temporary help in the graphic arts and printing industry and an expert in the placement of direct hires, announces that Scott Zettlemoyer has returned to the company and has been appointed Contingency Direct Hire manager. In this new role, Scott will initiate contingency direct hire efforts, and will oversee the efforts of Semper employees nationwide.

After a brief sabbatical, Scott returns to Semper where his activities extended from recruiter and account executive to area manager, responsible for overall operations and sales activities for two of Semper's Southern California offices. Scott came to Semper from Graphic Placement, Inc., where he was project manager responsible for sourcing, estimates, purchasing, and managing complex web and sheetfed printing and mailing projects for a wide range of customers. Scott has worked in a number of other print and design related companies, including as Stargazer brand catalog manager, where he brought new and updated catalogs to market; vice president of customer service for Wolfer Printing Company where, as member of executive team for the web and sheetfed printing plant he managed estimating, production planning, purchasing, and customer service in a hands-on environment; and

resource manager, process improvement supervisor, and operations and production planning supervisor at R.R. Donnelley.

“Throughout his career, Scott has demonstrated three very important traits that will help employers seeking mid- to senior-level help,” remarks Dave Regan, Semper CEO. “First, he truly has extensive print, copy, and digital production experience. He thoroughly understands the requirements of production and office roles. Scott also has exceptional drive—he has succeeded wherever he has been. This is important in the world of contingency placements, where the search firm is not compensated unless a candidate is hired. Finally, his resourcefulness helps him locate opportunities for Semper and our clients. We’re pleased that he’s taking charge of our contingency direct hire program.”

Scott can be reached at Semper’s Costa Mesa, CA office:

### **About Semper International**

Semper International is a temporary help placement firm founded and staffed by professionals who were raised and trained in the printing and graphic arts industry, and who understand the innate needs and demands of the profession. Semper has a thorough understanding of all the positions, equipment, and software essential to the business, which assures a perfect employee - employer match.

The Semper team constantly monitors job market trends in the industry. They understood the changes that occurred in job responsibilities when electronic prepress replaced the typesetter and mechanicals, and similarly understands the impact trends such as direct-to-plate and digital print have on staffing.

To provide career growth, Semper offers Semper University, an online training program for its employees to help prepare conventional printing professionals for upcoming changes in the industry. Realizing how the Internet is revolutionizing the industry, Semper also works with the most talented web designers, graphic designers, desktop publishers and production managers.

Semper has offices in Boston (HQ), Atlanta, Smyrna GA, Baltimore, Chicago, Dallas, San Francisco, San Diego, Los Angeles, Costa Mesa, Inglewood, Minneapolis and Wayne NJ. Direct Hire services for sales and management positions are conducted throughout the country.
